No

Please describe your residency/in-person requirement

All students taking asynchronous online classes during the summer semester come to campus for 5 days in June. During that week, each class meets the equivalent of three times and there are additional campus based learning and student development activities

Do you support a residency/in-person requirement for all programs regardless of program primary delivery method?

Yes

No

5. Please provide a rationale for your response

Assumption had two program delivery options (asynchronous online and traditional on campus) until Fall 2021. It became clear the institution was not going to support the program with the required additional faculty so the decision was made to adjust program delivery options so that the "traditional campus program" was now offered with half (10 courses) joined with the asynchronous online students and the other half (10 courses) were offered in an on-campus setting. All students taking asynchronous online classes during the summer (which is a requirement for students in the blended campus/online program) participate in the residency week for those classes.

Final comments? Please share them below:

The CRC exam pass rate is the cumulative rate since 2011. Students who graduated in 2022 had a 67% pass rate with 100% of the campus program students passing but only 25% of the online program students passing. The job placement rate is based on information provided to us after students are 6 months post graduation.

REMINDER: Programs/Student Outcomes must be made publicly available on your program's website. The information to be posted includes the following four data points regarding each of your accredited specialty areas: (a) number of graduates in the past year, (b) completion rate, (c) licensure or certification examination pass rate, and (d) job placement rate of students/graduates. Posting a URL link to your completed Vital Statistics Survey report will satisfy this requirement.

Once this data has been posted, send the URL link to the location on your website via email to cacrep@cacrep.org. If your program submitted a Vital Statistics Survey last year and you have previously posted program outcomes on the program website, you need to update your program outcomes report to reflect the most current data. If the URL link to the outcomes report changes when you update this information, you need to send a copy of the new URL link via email to cacrep@cacrep.org.
